Professional Summary

Full-Stack Developer with over one year of hands-on experience building production-grade mobile applications and RESTful APIs. Strong expertise in Flutter and Spring Boot, delivering scalable systems used by more than 500 users. Focused on clean architecture, performance optimization, and reliable production delivery.

Technical Skills

Languages: Java, Dart, JavaScript, SQL

Backend: Spring Boot, MongoDB, MySQL, Firebase, OAuth2

Mobile & Frontend: Flutter, Android SDK, REST APIs, Responsive UI

State & Tools: Riverpod, Provider, Git, Docker, Postman, Hive

Integrations: Razorpay, Stripe, Firebase Services

Professional Experience

Flutter & Backend Developer, Altwise – Pune, Maharashtra

- Developed and maintained three production Flutter applications for Android and iOS, supporting over 500 active users.
- Implemented Riverpod-based state management and Firebase real-time services, reducing data synchronization latency by 60 percent.
- Participated in code reviews and release cycles, contributing features and fixes deployed to production environments.

Projects

E-Commerce Mobile Application

- Built a complete shopping flow including product listing, cart, wishlist, and checkout.
- Integrated Razorpay for secure payments with proper handling of transaction success and failure states.
- Used Firebase Authentication and Firestore for user management and real-time order updates.

Full-Stack Expense Tracker

- Designed a secure expense tracking system with OAuth2-based authentication.
- Developed scalable REST APIs handling more than 10,000 records with optimized MongoDB schemas.
- Implemented analytics features for category-wise spending insights and reports.

Education

Bachelor of Engineering in Computer Science

Dr. Babasaheb Ambedkar Marathwada University, Aurangabad

- GPA: 7.97 / 10.0
- Relevant Coursework: Data Structures, Database Management Systems, Software Engineering, Mobile Application Development
